

July 20, 2025

This letter will confirm that the property located at 26 Forsyth Crescent in Toronto qualifies for a garden suite build, in the rear portion of the lot, under Toronto's new garden suite program.

**I visited the property on July 20, 2025** and confirmed siting, emergency access, zoning, and other appropriate qualifications to certify its eligibility under the new regulations.

The maximum size of a permitted 2-storey as of right recessed garden suite build appears to be 1,291 square feet total (over two floors, lower and upper). This is the largest allowable build for *any* property under the program.

The “buildable area” (grey in the diagram above) at 26 Forsyth Crescent grants a variety of placement options and footprint designs, even if the build size is maximized. There are no prescribed minimum

or maximum width or depth measurements, provided the footprint falls within the buildable area as outlined in grey above, all construction meets the provincial building code, and the footprint does not exceed 645.8 square feet. Walls with windows or doors must be placed at least 4.9 feet away from the respective property lines.

A proponent here could add a garden suite, and leave the existing small shed in place, if desired.

Recessed garden suite from Eva Lanes - [www.evalanes.com](http://www.evalanes.com)

The new garden suites program from the City of Toronto allows qualifying property owners to construct a garden suite “as of right” on their property, with simple building permit application and no political approval or committee of adjustment approval required. In most cases, no variances are required and no appeals or “neighbour vetoes” are permitted. The city also waives development cost charges.

The new building is a mostly-autonomous auxiliary dwelling unit, normally up to 6.0m (19.68 feet) tall (or 4m here), that cannot be legally severed from the main property, but is permitted a wide variety of uses, including as a revenue-producing (rental) unit. Where practical, some will have optional indoor vehicle parking.

The new garden suite regulations received political approval at Toronto City Hall on February 2, 2022, and on July 4, 2022 emerged successfully from an appeal process that had delayed the implementation slightly.

The program is now in full effect, and applications for the program are being accepted at City Hall, and the city has received just over 900 applications, as of late-June, 2025. Over 500 builds are underway, and nearly 250 are already complete.

Should you have any questions about 26 Forsyth Crescent in particular, or the garden suites program in general, please feel free to contact me any time, or visit our website, particularly under the “garden suites” menu tab or at [gardensuitesontario.com](http://gardensuitesontario.com).
